

## GERMANY IS GLOOMY OVER PEACE OUTLOOK

Government Feels It Must Accept  
Terms Offered Yet Fears Conse-  
quences of Flat Rejection.

## AFRAID TO CALL FOR VOTE

Hobbesite on Allied Conditions  
Fought With Embarrassing  
Difficulties.

By The Associated Press.

BERLIN, Saturday, April 19.—The cabinet devoted less than half an hour to the formulation of its answer to the entente invitation to negotiate for the purpose of receiving a draft of the peace terms. A feeling of gloom prevails in official circles, and the Associated Press is told that there are no elements in obtaining any mitigation in the substantial peace awaiting Germany.

The procedure of the council of war came as a surprise notwithstanding the fact that the news of the past week foreshadowed it and it was interpreted in cabinet circles and at the foreign office as final proof that the entente is disinclined to enter into negotiations based on President Wilson's "14 points" and that the terms awaiting Germany are out and dried.

The German emissaries will merely have instructions to carry the question whether the present government will assume the responsibility of accepting or rejecting the terms, or whether it will present them for a national referendum as a matter of conjecture. Official opinion so far as adduced tonight, is opposed to the declaration of a referendum and in favor of peremptory rejection of peace terms based on any other proposition than Mr. Wilson's platform, as the present temper of German workmen is anti-capitalist and anti-imperialistic and the bourgeoisie is in full accord with the proletariat.

The present government so far as has been learned is not flinching with the idea of a plebiscite, as it would much rather negotiate peace and set the country at work. But it is also conscious that a peace settlement in which Germany has not had a voice would precipitate a storm of national resentment which no cabinet could weather.

The communication from the entente powers was received here last Friday and the German answer was wired back this afternoon. Philipp Scheidemann, the chancellor, called in representatives of the German press and informed them of the government's action. The public will receive the first information as to events on Easter morning.

## GARY SAYS INDUSTRIAL BOARD OFFERS AID ROADS

HOBOKEN, N. J., April 21.—Discussing the controversy between the railroad administration and the Industrial Board of the department of commerce over steel prices, Albert H. Gary, chairman of the board of directors of the United States Steel Corporation, told his stockholders at their annual meeting here today that if the railroad administration accepted the judgment of the industrial board as to prices for steel products, the railroads would have benefited to a large extent and business would have been stimulated. He said that the business of the railroads would have shown improvement and called attention to the fact that last year the steel corporation had paid to the railroads \$189,000,000 in freight charges.

## Minnesota Men Home.

NEW YORK, April 21.—Forty-five officers and 1,436 men of the 1st Minnesota Infantry, composed mostly of Minnesota troops assigned to the 42nd (Rainbow) division, called from Great April 17 on the train. Huntington and are due in New York on April 22, it was announced here today.

Governor Visits Troops.  
PORT WORTH, Texas, April 21.—Governor D. A. Larragoitia of New Mexico visited the wounded soldiers of his state at Camp Bowie base hospital yesterday and informed them that he would undertake to see that each got a job when he was well and sent home. Mrs. Larragoitia accompanied the governor.

## Hun Peace Delegate Leading Bernstorff Aid in United States

WASHINGTON, April 21.—Dr. Haniel von Haimhausen, who, according to Paris advices, has been named as one of Germany's delegates to the peace conference, formerly was chancellor of the German embassy in Washington. As such he was the chief aide of Count von Bernstorff and was in charge of the embassy when the ambassador was away from the capital.

Von Haimhausen was credited with being the chief propagandist of the German embassy and it was generally known that a great part of the prepared propaganda which the embassy sought to have circulated passed through his hands.

## HOFSTRA COMPANY MAKING EXTENSION

Addition to Plant and Installation of  
Labor-Saving Machinery Repre-  
sents Outlay of \$30,000.

One of the latest additions to the industrial life of Tulsa is to be seen in the new \$30,000 plant of the Hofstra Manufacturing Company, which is under construction at Cheyenne and the Katy tracks.

Officers of the corporation are: J. Burr Gibbons, president; G. N. Wright, vice president; W. E. Johnson, secretary and treasurer.

The Hofstra firm is developing into one of the largest in Tulsa and is extending its operations over the entire country.

Modern in detail, the new plant will measure 60x140 feet. It will house the very latest in manufacturing equipment for which \$3,000 is being spent. A new machine which turns out 1,800 packages of Hofstra in four sizes each hour has been purchased. This machine is a carton maker, filling machine, automatic weigher and ton scaler combined. A new powder mixer will also be installed.

## K. OF C. LEADER GETS HIGH HONOR FROM POPE

NEW YORK, April 21.—Edward J. Hearn, general commissioner for Europe of the Knights of Columbus, has been nominated a Knight Commander of the order of St. Gregory by Pope Benedict XV in recognition of his war welfare work overseas. It was announced here today by William J. Mulligan, chairman of the organization.

The news of Mr. Hearn's nomination was contained in a letter from Knights of Columbus supervisor in Rome who described an audience granted by the Pope to a company of American soldiers and sailors March 20. The Pontiff in concluding the audience said:

"It is with particular pleasure that I give this special benediction to the Knights of Columbus. They are well known to me. I have watched their work with special interest and their deeds in recent difficult times are most praiseworthy. I declare from the bottom of my heart the benediction asked for."

## ARMY AVIATORS CANNOT ENTER PRIZE COMPETITION

WASHINGTON, April 21.—Under a ruling of Major General Menoher, director of the army air service, announced today, army fliers and planes cannot compete in exhibitions for prizes and individual prizes. Such competition is considered an improper use of the time of aviators and of government property. General Menoher said favorable consideration would be given to invitations to participate in exhibitions which have for their object aerial performance without remuneration, for development, charitable or cooperative purposes of an international, national, state or civic character.

# When the North and South Met to Found a New Empire

It was on April 22, thirty years ago, and it seems like yesterday when the North and the South met on this ground to discover there was henceforth no dividing line and proceeded each hardy pioneer to build for himself "My Little Gray Home in the West." Long before it was predicted by our great American author, Washington Irving, "This seems to me to be indeed the land of promise, the land of milk and honey; and on these plains innumerable herds shall find pasture, and populous cities will dot the fertile prairies."

Tulsa has fulfilled this prophecy in the fullest measure. Still in her infancy as the age of cities counted in years goes she has earned renown as "The Wonder City" of the world. Blessed with a balmy climate, a superabundance of natural resources, it is indeed the veritable land of milk and honey with its great wealth and wonderful reservoirs of oil and gas in addition to the great fertility of her soil and mineral deposits whose scope is still unfathomed.

## The Union—and in Union There Is Strength

Only One More Day and Then the Great Sale of the Water Damaged Stock of the BERRY-BEALL COMPANY Will Be a Matter of History.. Here are a Few of the Remarkable Bargains for Selection.

Every woman's hat in the house reduced in this mighty sale.

O you Oklahoma! In these few years you have raised skyscrapers that would grace the business centers of America's most metropolitan cities. If those people could but see the balmy climate, the bright sunshine of almost every day of the year, the country where we raise two crops each season and where they can shelter their live stock under the blue canopy of heaven; yes, if they could see how Oklahoma now looks with its blossoms; green meadows and perpetual sunshine they would come in an endless caravan to build with us "Their Little Gray Home in the West." If you have never seen Oklahoma, go to the museum and look at an Indian blanket and then come and contrast Oklahoma of today with thirty years ago, you will get the spirit of Tulsa at once.

Oh, you beautiful Arkansas Valley, and the beautiful city of Tulsa, overshadowing your river like an Indian babe grown to be the queen of the southwest. For thirty years all the North and the South gathered to Oklahoma where they built an empire in which they know no North or South, but find here
